

STEEL STORAGE RANGE

GO steel products are designed and manufactured to meet British Standards for today's industry. Competitive prices and high quality are trade marks of the GO Steel Storage Range.

GO Steel products are available in a choice of colours and most come with a 10 year warranty against all defects in material and workmanship. However the warranty does not cover damage resulting from misuse, neglect or accidents.

All GO products are manufactured using the latest production techniques and machinery. We use superior quality steel and parts for strength and durability.

GO prides itself on its attention to detail, with every component carefully chosen for its looks, strength and reliability. Particular attention is paid to safety and units are tested to the highest relevant British standards.

Quality, practicality and good aesthetics reflect the Companies commitment to be a major force in steel products.

AM4

Go filing cabinets are available in two, three and four drawer options. Each drawer has 100% extension opening to maximise filing space. An anti-tilt locking device is fitted to every cabinet preventing a second drawer being opened. Each drawer has high sides to provide additional strength and allows support for foolscap suspended filing. A4 filing can be accommodated when conversion rails are fitted (AMRA4). Compressor plates can be used to divide drawers vertically (AMCP).

Go coloured filing cabinets are available in two and four drawer only. Each drawer has 100% extension opening to maximise filing space.

An anti tilt locking device is fitted to every cabinet preventing a second drawer being opened. Each drawer has high sides to provide additional strength and allows support for foolscap suspended filing. A4 filing can be accommodated when conversion rails are fitted. Compressor plates can be used to divide drawers vertically.

Side Filing Cabinets

AMSD208

AMSD308

AMSD408

Go side filing cabinets are available in two, three and four drawer options. Available in two widths of 800mm and 1000mm. Each drawer has 100% extension opening to maximise filing space. An anti-tilt locking device is fitted to every cabinet preventing a second drawer being opened. Each drawer has high sides to provide additional strength. Two cross bars are in each drawer to facilitate A4 or foolscap filing.

Specialist Filing Cabinets

AMCF6

AMCF7

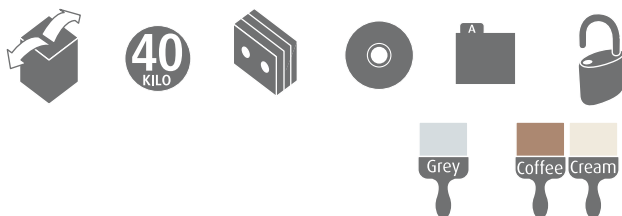

CD storage

Double compartment

Go card filing cabinets are designed to house cards, compact discs or video tapes. They are available in six drawer and seven drawer units and are fitted with heavy duty suspension slides. Anti tilt locking device is fitted to every cabinet preventing a second drawer being opened. Each drawer has double compartments complete with drawer dividers that are self locating in a number of positions.

- AMCF6 takes 229mm x 152mm (9x6) cards
- AMCF7 takes 203mm x 172mm (8x5) cards

Go "Jumbo" filing cabinets are designed to accommodate special filing needs, such as medical and legal professions. X-ray plates, A3 papers, drawings and computer files. Only available with 3 drawers jumbo cabinets come complete with, filing rails and compressor plates as standard. An anti tilt locking device is fitted to every cabinet preventing a second drawer being opened.

AMJ3

Double Door Cupboards

AC72DD

Go Contract double door cupboards offer an economical solution to today's storage and filing requirements. They are available in four heights 1016mm, 1524mm, 1829mm and 2083mm and are 914mm wide with double doors that open through 180°, allowing the use of roll out fitments. The units are fitted with a two point locking system, a twist handle lock and 2 keys (master series) on the right hand door. All cupboards are supplied empty, a complete range of internal fitments are available.

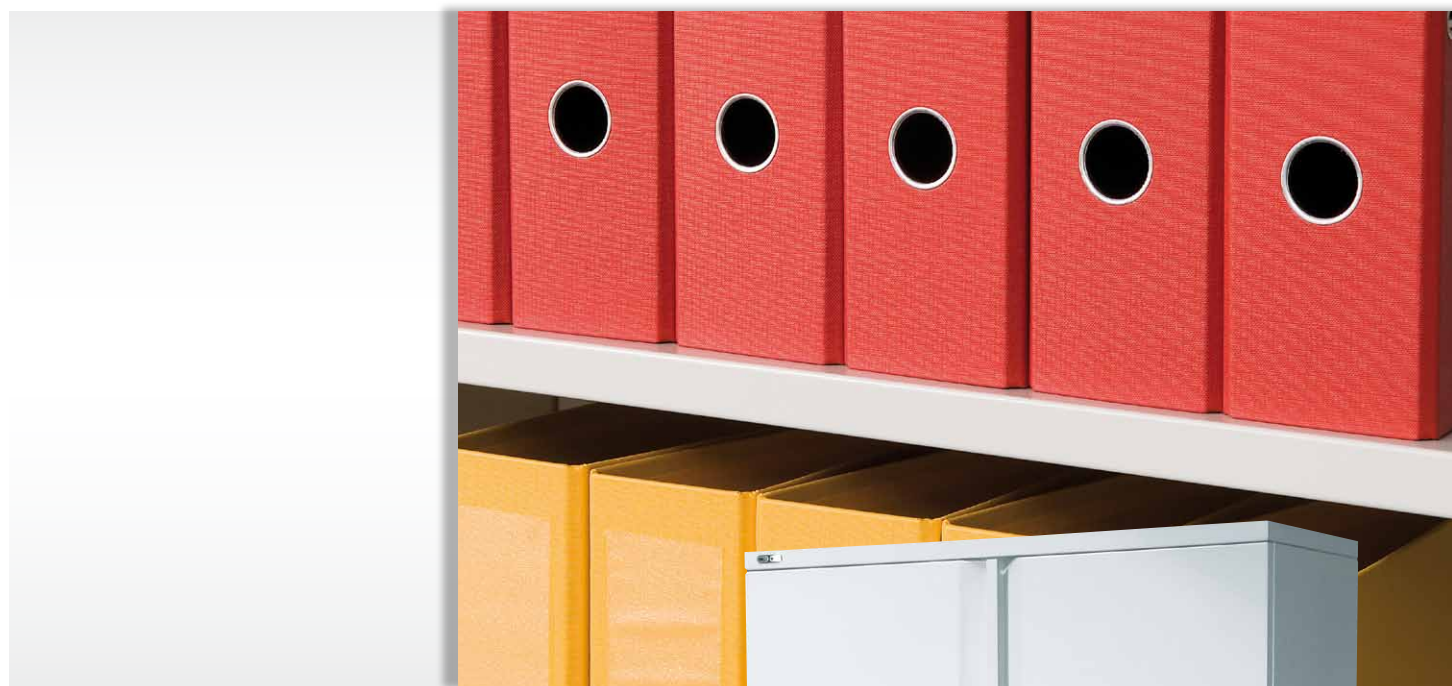

Twist door handle complete with 2 keys (master series)

AC40DD

See page 15 for internal fitments

Go Mainline double door cupboards are available in two heights, 1016mm and 1829mm and are 914 mm wide. The sleek full length grip handle is practical and makes it easy to open the doors. Each cupboard is fitted with a two point locking system and 2 keys (master series). All cupboards are supplied empty, a complete range of internal fitments are available.

AM40DD

AM72DD

Warning

Roll out fitments should always be fitted in the bottom half of units. Anti-tilt brackets **MUST** be used when fitting two or more roll out fitments.

Door lock complete with lock 2 keys (master series)

ACSC72

Security Cupboard

Fitted with steel
hinged lock cover

Locked with padlock
(not included)

Go security cupboards provide an additional degree of protection and are fitted with a steel hinged lock cover. This is fixed to the left hand door and pivots to cover the twist door handle lock, it can then be locked in position with a padlock (not supplied). Security cupboards are only available in one height 1829mm and width 914mm. All cupboards are supplied empty, a complete range of internal fitments are available.

Warning

Roll out fitments should always be fitted in the bottom half of units. Anti-tilt brackets **MUST** be used when fitting two or more roll out fitments.

Security Filing Cabinets

AMIL4

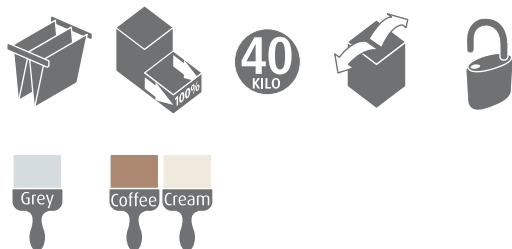

Go 4 drawer individual locking filing cabinets provide extra security with each drawer individually fitted with a lock and 2 keys (master series). A full size steel sheet is fitted between each drawer to prevent access if a drawer is removed. An anti-tilt locking device is fitted to every cabinet preventing a second drawer being opened. Each drawer has 100% extension and high sides to provide additional strength allowing support for foolscap suspended filing. A4 filing can be accommodated when conversion rails are fitted. Compressor plates can be used to divide drawers vertically.

Steel dividing sheet

Locked with padlock
(not included)

AMSFC2

AMSFC4

Go security cabinets give added protection for valuable documents and material. Security filing cabinets are available in two and four drawer only. All drawers are protected with a solid bar that is secured with a padlock (not supplied). An anti-tilt locking device is fitted to every cabinet, preventing a second drawer being opened. Each drawer has 100% drawer opening with high sides to provide additional strength, allowing support for suspended filing.

Side Opening Tambour Units

AM82SOT

Discreet track

Adjustable height foot

Go side opening tambour units are user friendly. When opened the tambour doors slide back on a discreet track into the unit so less space is needed and there are no open doors in a busy office. Side opening tambour units are available in five heights and are 1000mm wide except for AM28SOT which is 800mm wide. Each unit is fitted with finger grip handles and a two point locking system and 2 keys (master series). Full length magnetic slam rails keep the doors tightly closed. Adjustable height feet can be fitted to certain units to adjust where there are uneven floors. All tambour units are supplied empty, a complete range of internal fitments are available.

AM28SOT

AM40SOT

AM60SOT

AM78SOT

See page 15 for internal fitments

Go coloured side opening tambour units are available in two heights and are 1000mm wide. They come with a choice of four coloured carcasses to fit in perfectly with the smartest office decor. Finger grip handles and a two point locking system with 2 keys (master series) is fitted as standard. Adjustable height feet can be fitted to certain heights. All tambour units are supplied empty, a complete range of internal fitments are available.

AM40SOT
Black carcass/black doors

AM78SOT
Blue carcass/silver doors

Warning

Roll out fitments should always be fitted in the bottom half of units. Anti-tilt brackets **MUST** be used when fitting two or more roll out fitments.

Vertical Tambour Units

Go vertical tambour units allow you to accommodate a wide range of storage requirements. Units are available in one height 2083mm and are 914mm wide with a choice of a plastic or steel (for extra security) vertical shutter. All units are fitted with a convenient side lock, 2 keys (master series) and a mid height full width finger grip to allow opening and closing without the need to stoop or bend. All vertical tambour units are supplied empty, a complete range of internal fitments are available.

Full width finger grip to avoid stooping or bending

Steel roller shutter

AM82VERT

Warning

Roll out fitments should always be fitted in the bottom half of units. Anti-tilt brackets **MUST** be used when fitting two or more roll out fitments.
